🚀 PERSONAL PROJECTS

Watch Together app ⧉
- Created a custom video player from scratch.
- Allows multiple users to watch the same video in real-time with shared IDs.
- Utilized Firebase for real-time database.

Web Development Services Website ⧉
- Built a responsive website template for web development services.
- Utilized Flexbox and Grid for layout.
- Added animations using Animate.css.
- Implemented dynamic features like a slideshow, progress bar, and events countdown clock.
- Integrated the YouTube API to display videos and added a shuffle button.
- Utilized Firebase for an admin panel with real-time database and storage.

Weather Forecast Web Application ⧉
- Developed a responsive app for weather forecasts.
- Used HTML, CSS, JavaScript, and Animate.css for a user-friendly interface.
- Integrated a weather API for accurate data retrieval and error handling.

Dashboard ⧉
- Designed and built an 8-page responsive dashboard.
- Implemented layouts with Flexbox and Grid.
- Features include animated sidebar, Reading Position Progress Bar, and task section with deletion animation.
- Customized toggles, checkboxes, scrollbar, and radio buttons for unique styles and animations.

- Ensured excellent layout and responsiveness for a great user experience.
